

PARKDALE ECO NEWS

EARTH DAY 22nd April 2024

We are participating in EARTH Day 2024 on Monday 22Nd April. Earth Day is an annual event held to demonstrate support for environmental protection. This was first held on April 22nd 1970 and now is celebrated globally by Earthday.org involving 1 billion people in more than 193 countries.

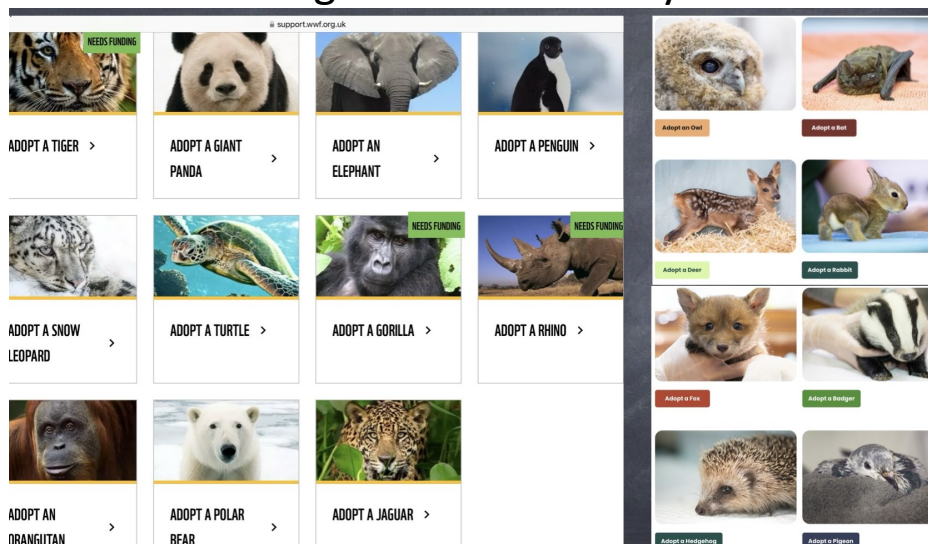

How can everyone get involved?

We are hoping children will swap 1 item or all of their uniform for something blue or green to remember our lovely planet. The children will be completing special themed activities during the day.

Can you help your child to make a mini-bug home from a small drinks or fruit carton or a single use plastic bottle? Just cut the end off and fill with twigs, leaves or pine cones. The mini-bug homes will be pushed into our new bug hotel in on the field to give our bugs a 5 star home. Bring it in on Earth Day.

Every class has chosen an animal to adopt from either [WWF UK](https://www.worldwildlife.org) or [Wildlifeaid.org](https://www.wildlifeaid.org). This sponsorship helps restore precious habitats and protects the wildlife that relies on them. PLEASE HELP US BY MAKING A SMALL DONATION ON YOUR PARENT PAY account.

Which animal has your child's class chosen?
